

# AQUACULTURE

PRIORITY PROJECT	DESCRIPTION	OUTPUT	KPIs
Aquaculture Reforms	Provide advice to and coordinate iwi comment on the new Aquaculture regime, with particular attention to the Aquaculture Settlement.	Advice on options is developed and provided to decision-makers.	Preferred options are agreed with iwi.
Industry Participation	Participate in industry forums (including AQNZ) to support iwi aquaculture development.	Options that enhance iwi aquaculture development are advanced.	Ongoing participation is supported by iwi.
Regional Aquaculture Strategies	Develop regional iwi aquaculture strategies that identify iwi aspirations, establish iwi priorities and facilitate iwi agreement on allocation of aquaculture settlement assets.	Regional iwi aquaculture strategies and allocation agreements are developed for priority regions.	Iwi aspirations and priorities are identified, and agreements reached by September 2011.
Pre-commencement Space Settlements	Working with iwi in remaining regions to reach suitable agreements with the Crown; Working with iwi in remaining regions to reach suitable allocation agreements between the iwi of the region to allow transfer of agreed settlement assets.	For each of the remaining regions: • A regional agreement is reached between iwi and the Crown • An Allocation Agreement is reached between iwi	Aquaculture Settlement Assets are transferred to iwi.
Appropriate Business Entities	Advise on Joint Venture options that iwi can use in aquaculture development.	Joint Venture options are developed for iwi to manage their aquaculture assets.	JV options that support iwi aquaculture development identified.
Viability Models	Maintain the currency and robustness of the viability models for the current regions and develop modelling information for regions where aquaculture is likely to take place.	Useful and relevant information is developed for regions where aquaculture is likely to take place.	Iwi are able to use the modelling information to inform their participation in aquaculture.
New Consent Paths	Provide information to iwi to enable them to participate in the aquaculture consent process.	Relevant information about gaining resource consents for aquaculture is provided to iwi.	Iwi are able to participate in the consent process.
Undue Adverse Effects	Advise on options for resolving interactions between fisheries and aquaculture as part of the aquaculture application process.	Advice on options is developed and provided to decision-makers.	Preferred options are agreed with affected iwi.

Budget | \$960,884

# STRATEGY & DEVELOPMENT

PRIORITY PROJECT	DESCRIPTION	OUTPUT	KPIs
Kaimoana Strategy	Develop a strategy that assists iwi and Maori and the Te Ohu Group to collaborate and jointly invest in programmes that will best advance the collective long-term interests of iwi and Maori in fisheries and aquaculture.	Final Kaimoana Strategy is released. National workshop on priority issues is held.	Iwi and members of the Te Ohu Group implement the strategy.
Improving fisheries management by better using data collected by commercial fishing participants	Work with Te Ohu Group companies to investigate opportunities for commercial participants to collect data that can be used to better inform fisheries management decisions.	Options for gaining key data identified.	Companies and Mfish agree on programmes to be trialled.
Encourage research into improved harvesting techniques to improve fish quality and targeting of species	Work with Te Ohu Group companies and others to encourage trials into improved harvesting techniques.	Options for harvesting and possible programmes to develop them identified.	Companies and other partners agree on programmes to be trialled.
Joint Venture Partnerships	Refine JV options that enable iwi, the Te Ohu Group and others to develop appropriate joint venture businesses.	Options for JV structures developed with "pros and cons" of alternatives.	Material provided to iwi and the Te Ohu Group by 30 September 2011.
Technical Information to assist iwi fisheries management working groups.	Investigate options for JVs with iwi and others that could support or enhance iwi aspirations in developmental fisheries.	Work completed on assessing appropriate structures for development of the surf clam fishery.	Te Ohu Kaimoana, iwi and other joint ventures partners (as appropriate) are presented with a proposal for a JV to develop the surf clam fishery.
Indigenous Development	Develop technical information that supports regional and national iwi fisheries management working groups to make decisions and recommendations on managing priority fish stocks.	Technical information is prepared and distributed.	Information is relevant and assists iwi to make decisions on their priority stocks.
Have Te Ohu Kaimoana recognised as a non-government organisation (NGO) and a delivery agency for New Zealand Aid funding in order to assist Pacific Island indigenous people with governance systems for their fisheries.		Paper presented to MFAT identifying Te Ohu Kaimoana as an NGO. Proposal to MFAT seeking NZ Aid funding.	MFAT accepts Te Ohu Kaimoana as an NGO that meets criteria to apply for New Zealand Aid funding by Dec 2010. Proposal for NZ Aid Funding accepted by Feb 2011.

Budget | \$1,220,630

# CAPABILITY & PERFORMANCE (CORPORATE)

PRIORITY PROJECT	DESCRIPTION	OUTPUT	KPIs
